General view of the main office where the process of intelligent execution begins

Corner of Composing Room. Where type is made to talk by experts who work under conditions that keep their skill at peak

1914 - GROWTH - 1929

GROWTH is a sign of a strong, healthy constitution whether it is in the human body, in a tree, or in a business organization

In 1914 the Price & Lee Company of New Jersey first opened its doors for business. The start was a small one a Multigraph shop, but through constant and steady growth, fed by the continued patronage of Newark's business houses, today the budding sapling is a giant Oak an organization offering complete Printing Service, as listed on the reverse side of this page

The Price & Lee Company of New Jersey has survived as one of the "fittest" It has kept pace with growth from the very beginning when the idea was conceived of building an organization that could offer the business man complete service for his convenience and economy

Month after month, year after year, new ideas, new personnel, new and up-to-the-minute equipment were one by one injected into the organization. As the service broadened our clientele increased. The many and reputable firms in and out of Newark which we have serviced with everything from a business card to a complete direct advertising campaign is evidence of our healthy condition one which insures a high standard of quality and service under one roof

Part of Pressroom. This battery of presses are all of the latest automatic type and manned by craftsmen of more than ordinary ability

Multigraphing, Addressing and Mailing Department. Completely equipped to execute entirely the work of speeding the message on its way
